## Marine Park & Conservation Area Fees

Alor Archipelago Regional Conservation Area · Official tariff schedule

**Source:** Pemerintah Kabupaten Alor — Tarif Layanan Jasa Usaha Pelayanan Tempat Rekreasi, Pariwisata dan Olah Raga dalam Kawasan Konservasi Daerah.

**What this is.** Marine Park / Conservation Area fees are set and collected by the regional government of Alor, not by the resort. They are charged to all visitors entering the conservation area where our dive sites lie.

**How to pay.** Fees are payable directly at Moko Alor Dive Resort on arrival, in IDR cash or by card (3% surcharge on foreign cards). We then settle with the local authority on your behalf. A receipt is provided.

**Most guests pay.** Tier 1A (foreign daily) or 1B (foreign annual) — see below. The annual pass is the better value for stays of four days or more.

**Currency.** All fees are in Indonesian Rupiah (IDR). Indicative conversions at recent rates: IDR 400,000 ≈ USD 25 · IDR 1,500,000 ≈ USD 95. Final conversion is the bank rate of the day at the resort, not a fixed rate.

**Annual pass vs daily.** For foreign tourists, the annual pass (IDR 1,500,000) breaks even at roughly 4 days of diving — most multi-night dive trips with us are better served by the annual.

**What's covered by the fee.** Entry to the conservation area where our dive sites lie. The fee is set by Pemerintah Kabupaten Alor; AUE collects on their behalf and remits in full. Fees fund local marine conservation work.

**Subject to change.** Tariffs are set by the regional government and may change without prior notice. This document reflects the schedule current at the time of publication. If rates have changed by the time you arrive, the new rate applies.
